

# Hex Bolts

Hexagonal Head Bolts — Partial & Full Thread

TERNS EXIM

Registered Merchant Exporter — Coimbatore, India

## Technical Specifications

|                   |                                                                                          |
|-------------------|------------------------------------------------------------------------------------------|
| Property Classes  | 4.6, 4.8, 5.8, 8.8, 10.9, 12.9                                                           |
| Size Range        | M4 – M100 (M5–M64 ex-stock; larger on order)                                             |
| Diameter × Length | M4–M100 metric; UNC/UNF 1/4"–4" also available                                           |
| Standards         | DIN 931, DIN 933, ISO 4014, ISO 4017, ASTM A307, ASTM A325, ASTM A490, IS 1367, BS 3692  |
| Thread Types      | Full thread (DIN 933 / ISO 4017); Partial thread (DIN 931 / ISO 4014)                    |
| Materials         | Carbon Steel (MS), Alloy Steel (Cr-Mo), SS 304 (A2), SS 316 (A4), Brass, Duplex SS       |
| Finishes          | Plain / Black, Zinc Electroplated (Cr3), Hot-Dip Galvanized (HDG), Dacromet, Black Oxide |
| MOQ               | 10,000 pieces or 700 kg                                                                  |
| Lead Time         | 7–21 working days from order confirmation                                                |
| Certification     | Mill Test Certificate (EN 10204 Type 3.1) · Optional SGS / BV / TÜV inspection           |
| HS Code           | 7318.15                                                                                  |

## Grades / Types at a Glance

| Property Class | Tensile Strength (MPa) | Yield Strength (MPa) | Typical Application                                   |
|----------------|------------------------|----------------------|-------------------------------------------------------|
| 8.8            | 800                    | 640                  | General structural, machinery, automotive             |
| 10.9           | 1040                   | 940                  | High-stress joints, heavy equipment, steel structures |
| 12.9           | 1220                   | 1100                 | Critical high-load, precision engineering             |

## Key Applications

- ✓ Steel structure fabrication & civil construction
- ✓ Petrochemical, oil & gas pipeline flanges
- ✓ Automotive assembly and heavy transport vehicles
- ✓ Power generation & wind turbine structures
- ✓ Industrial machinery, pumps & compressors
- ✓ Marine, offshore platforms & shipbuilding

## Export & Quality Information

|              |                                                                                |
|--------------|--------------------------------------------------------------------------------|
| Export Terms | FOB / CIF from Chennai · Tuticorin · Mumbai · Mundra                           |
| Currencies   | USD · EUR · AED                                                                |
| MOQ          | 10,000 pieces or 700 kg                                                        |
| HS Code      | 7318.15                                                                        |
| Quality      | Mill Test Certificate (EN 10204 Type 3.1) · Optional SGS / BV / TÜV inspection |
